

I resent the fact that Sinclair is broadcasting a smear piece about John Kerry. Sinclair Broadcasting uses the public airwaves free of charge is supposed to air material that is not biased one way or another. This manipulation of the media in the last weeks of a campaign, so one sided, is anathema to those who care about a free country.

I'm sick of lies and exaggerations coming from privately owned and operated media giants, but this unfair manipulation of the public airways is even worse.
